Regular monthly reports from various Departments were dispensed with and Pres. Bartlett introduced Chairman of the Board of Supervisors, T. Fred Bagshaw, the speaker of the evening.

Mr.Bagshaw explained in detail what we may expect in the way of beach cleaning, now and in the future. For the present it is planned on placing disposal cans the full length of the County Park which indludes the beach to the Kent fence on the sandspit. The County asks for the cooperation of property owners and residents to help keep the beach clean and the County will be responsible for collections. Eventually the County hopes some mechanical device will be used. Mr. Bagshaw assured us that the Board of Supervisors is interested in our problem and will do all they can until the necessary funds are included in the County Budget for adequate equipment. In the mean while Mr.Bill Woodington will be on the lookout for a cleaning device and Mr. Bagshaw hopes funds will be available next year. He advised as an added aid in keeping beach clean an ordinance might be passed by the Board making the leaving of debris on the beach a misdemeanor, and signs erected on beach to warn people. He also added that at the present there was a lack of man power at the County Park but more men were expected in the near future. New cans have been requisitioned and will be stencilled and placed on beach as mentioned above.

Mr. Bagshaw advised County or State acquisition of Kent acreage from Sea Downs south still under consideration however problems have presented themselves since improvements have been made by Kent. An original selling price of $27,000.00 has been raised to $40,000.00. The plan is for the State to acquire the property and lease it back to the County for 50 years. He said that everyone was sold on the idea the property should be in public ownership and if the State should fail to acquire possibly the County on its' own could acquire said property and later State take over as the Park tends to serve people from the entire State. He also adgised Kent anxious to dispose of said property.

Mr. Bagshaw also spoke on classification of jobs and salaries of all County employees, and other projects of interest to West Marin, one of which is a memorial to Veterans. There is at present a fund of approximately $80,000.00 however the various groups are unable to agree on how to use the funds.

In reference to the proposed San Rafael-Richmond Bay Bridge, Mr.Bagshaw advised should be completed by 1956.

At the end of Mr. Bagshaw's informative talk a question from the floor was asked regarding the closing of the county road parallel to Kent's fence on the sandspit. He explained this had been done without his knowledge and suggested the Club address a letter to the Board of Supervisors asking that the road be opened.

The meeting resumed regular business with a progress report by Lester Sadler on plans for the celebration on the 4th of July.

Lester Sadler also brought up the subject of the Scout Magazine and Mr. Elting Hubbard offered a years subscription of this magazine to each Scout in our local troop.

Mr. C. J. Green reported no decision had been reached as yet on Greyhound matter.
